DIGITAL HEALTH & CARE INSTITUTE

Board	Key Challenges/Themes	Budget	Future aspirations	Link
Ayrshire and Arron	Very high levels of deprivation	£200M	Most vulnerable people in community are cared for	Here
	No. of people over 65 to increase by 20%		create multi-disciplinary teams of primary, secondary and community-based staff to support people better	
North Lanarkshire	Focus on prevention/early intervention		Promote good health and wellbeing and steer people away from chronic illness through proactive support	Here
	Care at home		Communities have a very large responsibility to offer specialist care and support self-management	
North Lanarkshire	Using 3rd sector to their advantage		Local carers needs are met by the community	Here
	Focus on early intervention/prevention		Develop high quality mental health services that focus on recovery and support	
North Lanarkshire	Encouraging people to self-manage		People are able to look after and improve their own health and wellbeing and live in good health for longer.	Here
	Care in a homely setting by shifting care into communities		People, including those with disabilities or long term conditions or who are frail are able to live, as far as reasonably practicable, independently and at home or in a homely setting in their community.	
North Lanarkshire	Reducing health inequalities		People who provide unpaid care are supported to look after their own health and wellbeing, including to reduce any negative impact of their caring role on their own health and wellbeing.	Here
			People who work in health and social care services feel engaged with	

the work they do and are supported to continuously improve the information, support, care and treatment they provide.

South

Lanarkshire/Fife

Focus on self-management

Use communities/3rd sector to their advantage to integrate services

Reduce health inequalities

Focus on prevention and early intervention

Health and social care should be delivered by a single team

Making full use of capabilities of the community

Focus on prevention and early intervention

Improving the oversight and accountability of public services

Low levels of deprivation, good health profile

Workforce development is key to ensuring the uptake of integration which includes healthy organisational culture
creating person-centred care
Management of clinical risk
